View Shipment Proof Records Instantly

Visibility into daily operations shouldn't be locked behind extra steps. With the LoadProof Zapier Integration, warehouse and logistics teams can now access load records effortlessly right from the Zapier platform, without logging into the LoadProof application.

This integration streamlines access to photos and video documentation across sites, allowing shipment status, compliance, and issues to be monitored effortlessly, right within the existing workflow

Why It Matters?

- ✓ Save time in the warehouse with faster access to load records
- ✓ Integrating LoadProof with Zapier provides accurate, immediate access to vital load records.
- ✓ Reduce delays, strengthen compliance, and speed decision-making from inbound to outbound shipments.
- ✓ Access and manage records directly from the tools your team already uses

Key Benefits

- ✓ **Frictionless Access to Load Data**

Skip the manual login. With the Zapier integration, visual proof records from any site can be viewed without opening the LoadProof app. This seamless experience helps reduce interruptions during daily operations and keeps your focus on execution, not platform toggling.
- ✓ **Automated Daily Monitoring**

Updates are shared automatically through Zapier-connected platforms, keeping teams informed of new uploads—whether it's inbound receipts, outbound loads, or damage documentation.
- ✓ **Smart Filtering with Metadata**

Records can be filtered by date, location, shift, or custom tags. This makes it easier for supervisors and managers to locate specific documentation without having to sift through unrelated files.
