Automated Email Makes Load Management Communication Simple

Simplify your load management, improve team communication, and automate routine tasks, all in one solution. LoadProof makes it easy to share, track, and monitor every shipment without extra effort.

LoadProof gives you full control over your loads, helping your team work smarter and more effectively. With everything in one platform, managing shipments becomes straightforward, reliable, and stress-free, so you can focus on what really matters: running your operations.

Essential Features for Seamless Load Management Electronic Communications

With LoadProof, managing loads becomes faster, clearer, and more efficient, helping your team stay productive and your partners informed.

Instant Load Sharing

Share load details with partners in seconds, even if they don't have a LoadProof account. Send direct links via email and customize your message so your communication is always clear and professional.

Automated Notifications

Stay informed without lifting a finger. LoadProof can automatically send email alerts for new uploads or updates, keeping your team and partners instantly in the loop.

Track Vendor Performance

Provide vendors with their own dashboards to monitor performance and progress. Transparent data sharing encourages accountability, improves communication, and strengthens partnerships.

Smart Search and Filters

Quickly locate the loads you need with advanced filtering options. Organize your dashboard effortlessly, making audits, reporting, and day-to-day load management faster and more accurate.

Easy Third-Party Access

Give vendors and external partners access to relevant load information without requiring complicated logins. Streamlined access improves collaboration and reduces friction

Easy to Use, Powerful to Scale

Tailor every email to match your brand and messaging style. From updates to performance reports, you maintain control over how information is shared.
