## Why SOC 2 Type II Matters

When you capture and store photos in LoadProof, you’re handling valuable operational data. SOC 2 Type II is the gold standard for securing data. It’s not just about setting up security controls; it’s about proving, over time, that those controls are consistently followed and tested by an independent auditor.

This means your documentation is safe, reliable, and protected to the highest industry standards.

## What This Means for You

- Data you can trust**  
Every photo, every record in LoadProof is secured under rigorous compliance checks.
- Peace of mind**  
Independent validation confirms we safeguard your supply chain data every single day
- Scalable security**  
Whether one site or many, you can expand with confidence.
- Partner-ready compliance**  
Build stronger trust with your customers and stakeholders by showing you work with a SOC 2 Type II certified partner

## The Five Trust Principles

Our certification covers the five areas critical to your business:

**Security**  
Data is protected against unauthorized access.

**Availability**  
Systems remain available for operation as committed.

**Processing Integrity**  
Proof is captured, stored, and processed correctly

**Confidentiality**  
Sensitive data remains private.

**Privacy**  
Personal information is handled responsibly.

## Take the Next Step with LoadProof

Gain confidence with LoadProof, where operational proof meets proven compliance.
