Empowering Smarter, Faster Claims Resolution

In today’s demanding logistics environment, disconnected systems can slow down operations and obscure the truth. The integration between LoadProof and MyEZclaim removes these barriers by putting visual proof of delivery directly inside your claims management portal.

This integration provides your team with immediate, reliable evidence to resolve disputes efficiently and safeguard your operations, all from a single, intuitive interface.

Key Benefits That Transform Your Claims Process

Centralized Access to Visual Evidence

Access LoadProof photos and videos directly in MyEZclaim for a unified, real-time view. A robust API syncs all shipment visuals and data seamlessly between both platforms.

Accelerated Claim Resolution

Quickly resolve claims with instant access to LoadProof visual evidence inside MyEZclaim. Easily share complete documentation to reduce disputes and shorten claim cycles.

Enhanced Control & Team Collaboration

Gain centralized control over documentation with shared, up-to-date visuals. Improve accuracy, reduce risk, and enable seamless collaboration across teams and locations.
